

	A	B
3	Part	Workbook coverage
4	Part 01: Foundations	This guide provides the decision sequence and maps every model to the research progression.
5	Part 02: Cost and ownership	P02 Cost & Ownership models expense-ratio compounding across investment vehicles.
6	Part 03: Cross-border access	P03 Cross-Border Tax models withholding and nonresident estate-tax exposure.
7	Part 04: Portfolio architecture	P04 Diversification and P04 Blended Cost model variance, correlation and blended expense ratios.
8	Part 05: Core construction	P05 Core Concentration measures overlap and concentration using the Herfindahl-Hirschman Index.
9	Part 06: Satellite exposure	P06 Portfolio Risk calculates covariance-matrix portfolio variance for multi-asset and satellite allocations.
10	Part 07: Tactical sleeves and tax	P07 Options Sleeve and P07 Tax & Location model an options cycle, dividend tax, wash sales and capital-gains brackets.
11	Part 08: Governance	P08 Rebalancing compares drift, threshold rules and disciplined portfolio maintenance.
12	Part 09: Funding and withdrawals	P09 DCA & Contributions, P09 Sequence Risk and P09 Full Case Study connect contributions, rebalancing, fees and withdrawals.
